

George Eliot Academy Welcomes Jodie Gosling MP

This week, George Eliot Academy was delighted to welcome Jodie Gosling MP to the school to celebrate the official opening of their new science and art classrooms.

At the event, Ms Gosling received a tour of the brand-new classrooms and enjoyed speaking with pupils and staff about the excellent learning underway at the school.

Following sandwiches on arrival, Ms Gosling was shown to the art room to view a display of pupils' artwork. The group then visited the new science rooms, where they observed a Year 10 class in action before joining a Year 7 Nebula class in a lesson exploring friction, providing a great opportunity to see the new facilities being enjoyed by pupils.

Speaking about the new classrooms, Victoria, a pupil in Year 10, said:

"The new classrooms are amazing – they make lessons much more exciting, and it feels like we've got space to really be creative and try new things."

Jodie Gosling MP said:

"It's wonderful to see a school investing in facilities that inspire passion, learning and ambition. Spaces like these help young people to become independent and resilient, preparing them for whatever the future holds."

Homeira Zakary, Principal at George Eliot Academy, added:

"We are absolutely delighted to open our newly refurbished art room and science laboratories at George Eliot Academy. These modern, purpose-built spaces provide an exceptional environment for teaching and learning."

"The new science labs offer outstanding facilities that bring learning to life and create greater opportunities for pupils to develop their interests in STEM subjects. Our Nebula groups are taking full advantage of these rooms in their after-school science clubs."

"Likewise, our refurbished art room provides bright, inspiring spaces where pupils can explore ideas, experiment and express themselves."

"This investment, which was supported by our Trust, United Learning, reflects our continued commitment to giving every pupil the best possible learning experience. The feedback from both staff"

and pupils has been overwhelmingly positive, and it is wonderful to see these spaces already being used to their full potential."
